Louis-Etienne Messier

Curriculum Vitae

Québec, QC, Canada louis-etienne.messier@outlook.com 438-395-9256 Club d'IA ULaval
Presentation page Louis-Etienne Messier Louis-Etienne

JOBS

R&D developer, R&D, Creaform-Ametek — sept. 2025 - april 2026

- Integration of machine learning vision models into professional software
- Writing Nvidia TensorRT scripts
- Dataset generation
- Benchmark and optimization of machine learning models

Lab Assistant, Computer Vision and Systems Laboratory of Laval University — sept. 2024 - dec. 2024

- Publication of a new Computer Vision method and paper at 3DV 2026
- Code adaptation of modern computer vision methods for benchmarking
- Generating synthetic image data

EDUCATION

Bac. Software Engineering, Laval University — 2023 - april 2027

- Current GPA : 4.24

DEC Science, Math and Computer Science, CEGEP Sherbrooke — 2021 - 2023

INTERNSHIPS

Full stack developer, Kaleido — may 2026 - aug. 2026

IA Camera intern, R&D, Creaform-Ametek — may 2025 - aug. 2025

Research assistant, Computer Vision and Systems Laboratory of Laval University — may 2024 - aug. 2024

SCHOLARSHIPS

Laval University Director's Merit Award, for exceptional academic records and community involvement in the Software Engineer program — april 2026

Undergraduate Research Scholarship for Controllable Synthesis of Realistic Images, NSERC — june 2024

Scholarship for best grades of the Science, Math and Computer Science program, CEGEP Sherbrooke — june 2023

RESEARCH PUBLICATIONS

3DV 2026 accepted : SpotLight: Shadow-Guided Object Relighting via Diffusion — dec 2024
Frédéric Fortier-Chouinard, Zitian Zhang, **Louis-Etienne Messier**, Mathieu Garon, Anand Bhattad, Jean-François Lalonde

TECHNOLOGIES

JavaScript, TypeScript, HTML, CSS, C++, Python, Java, C#, Java, ARM, React, Vite	prog. languages
AWS, Microsoft Azure, Google Cloud, MCP, Agentic Programming, Pytorch, Machine Learning, Computer Vision, Android Studio, Linux, Blender, Unity, SSH, Websockets, WebRTC, OpenGL	technologies

EXTRACURRICULAR ACTIVIES

Vice-President of logistics, IA Club of Laval University — jan. 2025 - april 2026

- Conception and management of local GPU heavy compute servers

Project leader of *Flappy EEG*, IA Club of Laval University — jan. 2025 - may 2025

- Team Leader for an undergraduate EEG signal interpretation project
- Working with embedded systems
- Functional prototype built

Red Cross, Certified in Emergency First Aid & CPR/AED level C — dec. 2024

Vice-President of recrutment, IA Club of Laval University — jan. 2024 - jan. 2025

- Club growth from active members to 40+
- Creation and management of the *Scientific Reading Group* to gather people and talk about specific AI papers
- Management of tutorials on machine learning
